**PRESENT APPOINTMENT:**

I am working as a substantive consultant in Rheumatology since 2014. I am currently working at Manchester University Foundation NHS Trust (North) where I diagnose and manage patients with musculoskeletal problems, Connective Tissue Disorder, Rheumatoid Arthritis, Spondyloarthropathy including Ankylosing Spondylitis, Fibromyalgia, Hypermobility, Chronic Back Pain, Chronic Neck Pain, Chronic Spinal Pain, Mechanical Joints Pain, Inflammatory Joints Pain, Regional Pain Syndromes, Osteoarthritis and Chronic Pain Syndrome in a clinic setting similar to problems in personal injury clients.

I also diagnose and manage patients with Fibromyalgia, chronic pain syndrome, raynauds disease, carpal tunnel syndrome, psoriatic arthritis, SLE (Lupus), Rheumatoid Arthritis, Sjogrens Syndrome, Raynauds Phenomenon, Connective Tissue Disease, Reactive Arthritis, Gout, Pseudogout, Sarcoidosis, Osteoporosis, Inflammatory Muscle Diseases, Still's Disease, Polymyalgia Rheumatica, Giant Cell Arteritis and Vasculitis.

**ANY ADDITIONAL POSTS PREVIOUSLY HELD:**

I have worked as a clinical assistant in Accident and Emergency department at Bradford Royal Infirmary where I managed patients with trauma and whiplash injuries in addition to other medical emergencies. 2010-2012.

**ANY OTHER RELEVANT INFORMATION:** (eg. Publications)

I have done public awareness talks on inflammatory arthritis and macrophage activation syndrome at North Manchester Public Forum and social media.

I lead a national audit on BSR early inflammatory arthritis for NCA NHS Trust from April 2018 till October 2023.

I have publication of a case series on patients who developed macrophage activation syndrome due to adult onset stills disease. April 2018

I have publication in BMJ on knee pain in 2009.

I have developed acute hot joint management policy for Pennine Acute (NCA) NHS trust.

I have developed Musculoskeletal Disorder Management pathway for MSK Alliance in North Manchester.

I am primary investigator for BSRBR study for biologics at my NHS Trust.

I was UK lead for Randomised Clinical Trial on Infliximab biosimilar.

I was primary investigator for rheumatology studies in inflammatory arthritis.

I regularly review literature on musculoskeletal problems. I have attended numerous courses on management of musculoskeletal problems to keep up-to-date with new evidence.
